

2023

Convenors: Jane Noyes, Andrew Booth, Angela Harden, Ruth Garside, Kate Flemming, James Thomas, Tomas Pantoja, Emma France, Catherine Houghton, Katy Sutcliffe

Highlight: Delivering the new *Cochrane Campbell Handbook for Qualitative Evidence Synthesis* and an accompanying Cochrane introductory training module

Research and development

- Continue to develop the CAMELOT tool for assessing methodological limitations for use with [GRADE CERQual](#).
- Collectively and individually, we continue to produce relevant methodological research on qualitative evidence synthesis methods of specific interest.
- Currently developing PRISMA for QES having registered an interest on the [EQUATOR network](#) site.

Best practice and guidance

- Developed guidance contained in 21 new chapters in the *Cochrane Campbell Handbook for Qualitative Evidence Synthesis*.
- Delivered a very well attended [Cochrane Webinar series on qualitative evidence synthesis](#) in 2021.
- Developed an [introductory training module](#) with the Cochrane Training team.

Methods implementation

- Continue to work closely with Cochrane groups to undertake qualitative evidence syntheses.
- About to monitor published QES reviews in the [Cochrane Library](#).
