

2020 Key Outputs

Convenors: Mariska Leeflang, Petra Macaskill, Yemisi Takwoingi

2020 Highlight: COVID-19 DTA series and QUADAS-C webinar and training series

Research and development

- Our methods research and development as individuals and published with our home base affiliations facilitates collaborations with key methodologists from a range of institutions to inform Cochrane DTA Methods

Best practice and guidance

- [Preferred reporting items for systematic review and meta-analysis of diagnostic test accuracy studies \(PRISMA-DTA\): explanation, elaboration, and checklist](#). BMJ2020
- Support development of RevMan DTA functionality
- Contribute to the Cochrane DTA Handbook
- Organize and participate in the DTA Editorial Team

Methods implementation

- Provide support to DTA review authors and CRGs by contributing expertise as needed
- QUADAS-C webinar and training series
- Coordinating and contributing to a suite of Cochrane DTA reviews on COVID-19 testing
